ALABAMA TO HOLD SPECIAL SESSION

MONTGOMERY, Ala., Aug. 27.—Gov. Theodore E. Kilby will call a special session of the Alabama legislature to convene on Tuesday, Sept. 14, for the purpose of enacting legislation whereby the women of the state may qualify as voters under the Nineteenth amendment to the federal constitution.

The governor announced his decision yesterday afternoon. In addition to the suffrage legislation, it will suggest action on general bills which have been held unconstitutional by reason of legislative defects. The measures include an act requiring all state officials to reside in Montgomery, which fell by reason of the commission of the enacting clause, an act authorizing county commissioners or boards of revenue to issue interest-bearing warrants for road improvement and maintenance; a bill compensating sheriffs for feeding of prisoners, also fell by the same route and will be re-passed.

A fourth measure providing for the inspection of motor fuel and levying a tax for the maintenance of the inspection bureau was declared invalid in the United States circuit court on the ground that it was a revenue measure and had been introduced in the state senate instead of the lower house and passed within five days of adjournment of the legislature and will be brought up again.

Governor Kilby held the opinion that the session would run a legislative day.

Hughes, English; Miss Mary Moody, mathematics; Ruth Newman, history; Miss Maggie Berry, domestic science; Miss Annie Laurie McKay, music; Mrs. Elizabeth McChes, matron; Miss Estelle Price, secretary to superintendent.

CITY CLUB STICKS TO HOUSE BUILDING PLAN

Although their proposal of a city housing corporation was rejected by the Chamber of Commerce, members of the City club Friday were busy engaged in laying out plans for a continuance of the scheme. R. S. Keebler, chairman of the City club committee which is pondering the question, declared another conference of his advisers was probable next week.

The rejection came Thursday afternoon at a meeting between C. C. Haney, president of the City club, the latter organization's committee and members of Chamber of Commerce, as well as various local business men. The committee's proposal was to incorporate at \$50,000 and construct homes for wage earners. A standard scale of building was to be adopted and the homes erected in sufficient numbers to make purchase prices nominal.

It was pointed out by some of the objectors that financial conditions just now are such that it would be difficult to subscribe such capital. Further, some of the men present thought the problem would work itself out in time and possibly before such a corporation could get in working order.

Various building associations are undertaking to erect houses in Memphis, said C. E. Barbour, of the American Building and Loan association. Other firms are endeavoring to build houses which can be put up on lots bought on long time and the homes paid for in the same manner.

Quite a number of prominent men are working to put the corporation scheme over.

Keeping Healthy in Broiling Sun

When head feels heavy or stomach is acid, get quick relief with Dr. Caldwell's Syrup Pepsin.

In spite of the lighter foods we eat during summer months, it is the season of greatest dyspepsia and constipation. Many find it difficult to stand the heat. They exercise little and are always tired and half-sick.

It is good policy to take plenty of ripe fruit and vegetables, lots of cool, clear water and walks when the sun has set. But with all these precautions it is often impossible to regulate the daily elimination, with the result that thousands suffer from constipation, indigestion and similar ills.

There is nothing better for clogged-up bowels, for a stomach that refuses to work, than that well-known combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is America's standard relief for constipation. It has the great merit of being sure to act, yet acting mildly and without griping.

Thousands of mothers give Dr. Caldwell's Syrup Pepsin to infants, and it is especially popular in hot weather. Mrs. E. C. Wilson, who lives in Hugo, Okla., where the heat in summer is intense, is the mother of eight children. All of them, and including herself, maintain their health in spite of enervating heat by frequent use of Dr. Caldwell's Syrup Pepsin. See what it will do for you.

Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 112 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.
